

## NLC Land Allocation

The current local plan is due to expire and NLC is currently developing a new strategy. The spatial planning unit within NLC is charged with the task and is currently midway through the consultative process.

A list of possible land identified for development has been published and the Parish Council have looked at and forwarded views on this, we considered key facts such as impact on the area and in particular infrastructure and flood plains.

We are awaiting the next consultative stage which has currently been delayed.
