

WARNING

FLYTIPPING

North Lincolnshire Council has received reports regarding fly tips occurring in your area. Fly tipping is not only unsightly but poses a significant threat to people, wildlife, environment and the local economy.

All reported fly tips are investigated and where appropriate legal action taken.

The council needs your support to tackle this problem. If you see a fly tipping incident, or come across a fly tip, please call the council contact centre on 01724 297000 or report online at northlincs.gov.uk/flytipping

Where possible please note:

- The day, date and time of the incident;
- What you saw, such as descriptions of those involved and what they were doing;
- The vehicles involved and what they were doing, including make, colour and registration plate;

- Also note the view you had and the weather conditions.

All of these details may help the council to secure a conviction and reduce the likelihood of it happening again.

Never give your waste to someone else other than the council to dispose of, either freely or by payment, unless they are a registered waste carrier. If you are unsure call the council contact centre on 01724 297000.

**For your personal safety
North Lincolnshire Council
recommends that you never
touch a fly tip or approach anyone
engaged in flytipping.**
